

Wow! Landscape Photography – Sue Reynolds Materials List

- 1) Bring any digital or film camera with manual settings and focus and be familiar with its operation. If you have an Automatic-only camera, you can take the class and get ideas for a camera upgrade later.
- 2) Bring your Owner's Manual.
- 3) Notebook and pen
- 4) Extra camera battery if you have one
- 5) Tripod and remote release are helpful but not required.
- 6) Participants should be comfortable walking 1-2 miles carrying camera equipment, snacks and water. One field session may require State Park fees, which can be shared by car-pooling. One field location may not have restrooms at the trailhead, so bring TP.
- 7) Before class, familiarize yourself with your camera's basic controls, including shutter speed, aperture and focus settings. *Read your Owner's Manual and bring it with you to both classes.*
