

**Instagram for Artists  
Materials List and Information  
Thursday, October 19  
6:00 - 8:00 pm  
5:30 pm - Instagram help!**

Hi everyone!

I'm looking forward to our upcoming Instagram for Artists workshop on Friday, October 19! In prep for our workshop, I have a "materials list" for our workshop as well as a short read on the basics of Instagram. I will be available at 5:30 pm in case anyone needs help with downloading the app or has any other basic questions before we dive in to our evening agenda.

**Materials:**

- Smart phone - Instagram is an app based platform. You must have a smart phone to use the app. Instagram can be viewed online but can only be updated through your smart phone device.
- Instagram App - Please download the instagram app before our class. If you need assistance, please read the link below. I will be available 30 minutes before class to help with any instagram download questions.
- Digital photos (on your phone) of your artwork (optional)
- Examples of your artwork if easy to transport to class and not breakable (optional)

**How to set up your instagram account and basic info on instagram:**

Feel free to reach out if you have any questions.

Maile
